

FirstKnock

The Future of Outside Sales

Stop Knocking Dead Doors. Start Closing.

firstknock.io

THE PROBLEM

D2D Sales Is Broken.

Reps are burning out knocking cold, dead doors. Managers have zero visibility. Companies are hemorrhaging talent and revenue — and nobody is solving it.

~70%

Annual Rep Turnover

D2D sales burns through talent at a staggering rate — unsustainable for any growth-stage company.

38%

Doors Are Rentals

35–40% of doors in a typical territory are renters — non-decision makers who can never buy.

\$800+

Cost of a Wasted Day

Rep time, fuel, and lost opportunity cost add up fast when every knock is a gamble.

THE SOLUTION

Laser-Focused Targets. Zero Wasted Doors.

"If it's on the FirstKnock map — it 100% just changed hands."

FirstKnock layers verified ownership data on top of real-time property transactions, eliminating rental doors from rep routes entirely. Every door on the map is a qualified, high-intent homeowner prospect.

Verified Property Map

Only confirmed owner-occupied, recently-sold homes — no rentals, no wasted knocks.

Mobile Knocking App

GPS proof-of-visit, offline mode, and rep accountability built for the field.

Manager Command Center

Uber-style dispatch, live rep tracking, and territory oversight from one screen.

MARKET OPPORTUNITY

Two Beachhead Verticals. Massive TAM.

☐ Pest Control

25,000+ pest control companies in the US

D2D is the **#1 acquisition channel** for new customers

Average contract value:

\$400-\$800/year

- High churn environment creates constant demand for new doors

☐ Smart Home Security & Alarms

15,000+ security dealers and installers in the US

D2D drives **60%+** of new install volume

Average contract value: **\$1,200-\$2,500**

- Recurring monitoring revenue makes LTV extremely strong

☐ **Total D2D Sales Tech TAM: \$2B+ addressable market** across home services verticals — and FirstKnock is purpose-built to own it.

Four Engines. One Unstoppable GTM Machine.

Built to scale from 10 to 10,000 reps. Every engine is designed to compound — more data, more community, more pipeline, more automation.

Core Messaging

ICP definition, sharpened value props, and battle cards that convert cold conversations into demos.

Social Media Engine

TikTok and LinkedIn content that builds an owned D2D sales community from the ground up.

Cold Outreach Engine

Precision email sequences and structured cold call frameworks targeting pest and security verticals.

Automation Stack

Smartlead + Close.io + Clay + HeyGen + Zapier — a machine that generates pipeline while the team sleeps.

SOCIAL STRATEGY

Own the D2D Sales Community Online.

Millions of D2D sales reps. Zero dedicated tech brands owning the conversation. FirstKnock fills that vacuum.

- ☐ Rep Wins
Field success stories, leaderboard highlights, and close celebrations that make reps the hero.
- ☐ Education
D2D tips, objection handling scripts, and territory strategy that drive organic reach.
- ☐ Product Demos
Screen recordings, route reveals, and live close rate comparisons that convert viewers to leads.
- ☐ Founder Voice
Behind-the-scenes hustle, vision content, and authentic founder storytelling that builds trust.

Precision Outreach. Predictable Pipeline.

☐ Pest Control Sequence

Subject: "Your reps are knocking rentals right now"

Lead with the rental door waste stat, bridge to FirstKnock's verified map, and close with a soft CTA for a 15-minute demo.

☐ Security Dealer Sequence

Subject: "How [Competitor] is closing more doors per rep"

Lead with route efficiency, layer in GPS accountability, and offer a live demo of the manager command center.

Cold Call Framework: AIDA — Attention (pain hook) → Interest (stat) → Desire (demo offer) → Action (calendar link)

The Tech Stack That Runs While You Sleep.

FirstKnock's automation layer transforms a small team into a high-output sales machine — enriching leads, sending sequences, tracking pipeline, and producing content at scale, 24/7.

Clay.com — Lead Enrichment & ICP Scoring

Enrich prospects, score ICP fit, and build hyper-targeted lists from verified business data.

Smartlead — Automated Email Sequences

Multi-inbox cold email at scale with built-in warm-up to protect deliverability and volume.

Close.io — CRM, Pipeline & Call Tracking

Built for sales teams — power dialer, full pipeline visibility, and rep activity tracking in one place.

HeyGen / ElevenLabs — AI Video & Voice

Personalized AI video outreach and content production at scale — without a full production team.

Zapier — Workflow Automation & Integrations

The glue layer — triggers, CRM updates, notifications, and cross-tool handoffs, all automated.

TRACTION

Early Traction. Clear Trajectory.

● LIVE — Current State

- Paying customers onboarded and active
- ARR established and growing month-over-month

Pest Control vertical: **Validated** ✓

Security Dealer vertical: **Validated** ✓

Next 90-Day Targets

- Target demo volume booked from outreach sequences
- New logos closed across both verticals
- MRR milestone achieved
- Content engine live: TikTok + LinkedIn
- ✓ Full automation stack deployed and optimized

NOW

Live customers, two verticals validated

30 Days

Content engine live, outreach sequences running

60 Days

Automation stack deployed, pipeline scaling

90 Days

New logos closed, MRR target hit

THE ASK

Let's Scale This.

□ The Ask

[Investment round placeholder]

- Outreach infrastructure: Smartlead, Clay, Close.io
- Content production: HeyGen, ElevenLabs
- Paid acquisition testing across verticals

□ Key Hires

Head of Sales — D2D industry background required

Content Creator — TikTok-native, sales community fluent

SDR × 2 — Pest control and security verticals

□ Strategic Partnerships

- NPMA — National Pest Management Association
- ESA / SDM — Security dealer networks
- D2D sales training communities and influencers
